Foster Program volunteers provided vital support for newborn animals and those needing more time prior to adoption due to medical or behavioral challenges.

**Our expanding Foster Program successfully reduced in-shelter length of stay for animals by 2%!**

With your support, we were able to hire a full-time Shelter Veterinarian in 2022, streamlining vet care for shelter animals and helping them move through the steps from intake to adoption more efficiently.

**You helped us reduce overall length of stay for the animals by 3.5%!**
